### INTERESTS

## TRAININGS & SEMINARS ATTENDED

---

### **TESDA Rigging - NC I**

- Observe procedures, specifications and manuals of instruction
- Perform mensuration and calculations
- Maintain tools and equipment
- Inspect rigging gears
- Install rigging gears
- Assist crane operator

### **TESDA Automotive Servicing - NC I**

- Perform Diesel Engine Tune Up
- Perform Gas Engine Tune Up
- Service Automotive Battery
- Service Ignition System
- Perform Under chassis Preventive Maintenance

### **Hazard Identification, Risk Assessment and Control (HIRAC Training/8-hours)**

- Learn the concept of risk assessment
- Identify occupational health and safety hazards
- Qualitative methodology of risk assessment
- Recommend practical control measures

### **Basic Occupational Safety and Health Training Course (BOSH Training/40-hours)**

- Determine existing and potential safety and health hazards
- Identify the range of control measures
- Identifying hazards at the workplace

### **Construction Occupational Safety and Health Training (COSH Training/40-hours)**

- Focuses more on the potential safety and health hazards on construction industry

### **Computer Aided Drawing 2D, 3D, Color Rendering and Plotting (AutoCAD 2017)**

## EXPERIENCES

---

### **Field Logistics Assistant – January 2020 to Present**

#### **ThermaPrime Drilling Corp. – Logistics Department**

- Make sure items/equipment reach their destinations safely, securely, and on-time
- Organize Rig/Equipment mobilization activities, managing information accrued from point of origin to delivery, orchestrating transportation movements, and arranging for services as necessary
- Coordinate and track movement of goods through logistic pathways
- Review freight rates and other transportation costs to keep working costs low
- Create Rig-move plan and Journey Management Plan in coordination with Rig Managers, Tool-pushers and Client
