📍 0037 Apartment A. Vicencio St. Brgy. Niogan Pililla, Rizal

OBJECTIVE

To learn new knowledge, skills and apply it to daily work activities, not only as a trade skill but as an employee that will help the company to grow and prosper. During my ten (10) years as a **MECHANICAL/PIPEFITTER** I have gone through many projects and completed them. Some of them are large plant in the kingdom of Saudi Arabia under by Saudi Aramco and Sabic. I learn to read, understand different kind of iso metric drawing, standard and specification of materials. Cooperation Teamwork and Compliance are necessary for the success of the job.

WORKING EXPERIENCE

MECHANICAL TECHNICIAN / ASSISTANT

EARTHSTREAM GLOBAL

February 06, 2022 to March 08, 2022

- Carry out all mechanical activities on gas and steam turbine, injection pumps, and auxiliaries, such as maintenance, repair, monitoring, and testing etc.
- Obtain work permits from area authority, examine faulty units, and establish requirements for tools, parts and material necessary to carry out the work.
- Participate in major overhauls and carry out all mechanical aspects of recommissioning work.
- Ensure all maintenance activities are conducted within company standing instructions and procedure, and manufactures guidelines.
- Carry the preventive and routine mechanical maintenance aspects on gas turbine using the correct tools and equipment.
- Observe and follow company HSE procedure to ensure work is carried out in a safe manner. Exercise good housekeeping practices.
- Ensure that all tools and test equipment are kept clean.
- Mechanical, Structural & piping works of 3x250 MW Steam Turbine Generator (STG).
- Replacement of deflector plate of generator.
- Shutdown works for repairing Generator, Steam and Gas Turbine.

- Adjustment of oil deflector clearance to maintain the equal gap in the shaft using filler gauge.
- Replacement of collector oil ring of a generator caused by oil leak.
- Perform welding activities such as Shield Metal Arc Welding (SMAW).

PIPEFITTER/PLUMBER

FINETOUGH CONSTRUCTION COMPANY

PHILIPPINES

July 08, 2019 to January 19, 2022

- Background working with a range of pipe materials and fittings.
- Top level knowledge in assembling, modifying, and fixing plumbing systems.
- Sound abilities in installing pipes fixtures for water, heat, and drainage systems.
- Able to estimate materials, equipment cost and labor time.
- Able to perform hydrostatic and pressure tests to locate leakages.
- Efficient execution of plumbing and piping orders using blueprints and drawings.
- Skilled in measuring and cutting different size pipes.
- Works well independently and without supervision.
- Organizes and maintains efficient and accurate records and daily activity reports.

PIPEFITTER

P.E.C

SINGAPORE

August 2018 to October 2018

- Can read, interpret and understand iso metric drawing and piping instrument diagram.
- Can used and apply different kind of hand and power tools.
- Measuring, cutting, assembling and installing black, galvanized iron, stainless steel, copper and PVC piping system.
- Coordinates with other trades personnel and the warehouse personnel in the identification of proper and correct materials, parts assemblies, and requirements for a variety of requisitions necessary for the job/task.
- Experience on different projects: refineries, shutdown, new construction, turnarounds.
- Experience in a foreman role.
- Bending and joining pipework by various method and machinery.
- Thread pipes with stock and dies.
- Wears protective clothing or personal protective equipment required by the work environment or governmental regulations.
- Do the inspection of all the flanges connected to all equipment such as Exchanger, Vessel, Column, Pump Motor, and any other rotating equipment.
- Sealed the Flanges that totally Box up and Tensioning done, conduct visual inspection for every bolt and Flanges.
- Perform welding activities such as Shield Metal Arc Welding (SMAW).

PIPEFITTER

AL-RUSHAID CONSTRUCTION COMPANY LTD.,

KINGDOM of SAUDI ARABIA

January 2009 to January 2018

- Experience in a leadman role.
- Installing, modifying and repairing new and existing medium pressure piping systems and equipment.
- Reading isometric drawings, taking measurements, fabricating and installing piping efficiently and without errors.
- Testing piping system for leaks by increasing pressure in pipes and observing gauge.
- Lifting and basic rigging into place of piping and piping supports.
- Trade qualifications in boiler making / pipefitting / mechanical fitting or equivalent.
- Can read, interpret and understand iso metric drawing and piping instrument diagram.
- Can used and apply different kind of hand and power tools.
- Perform acetylene and oxygen cutting using cutting torch, remove bolts and nut..
- Fabricate and fit up pipe spools and pipe support according to plan and isometric drawings
- Perform hydrostatic and pneumatic pressure testing..
- Planning of piping system lay outs, installation, or repairs according to specification.
- Perform welding activities such as Shield Metal Arc Welding (SMAW).

OTHER WORKS DESCRIPTION

- Office staff to assist engineer for material take off/quantification of BOM.
- Assist quality control for reviewing and preparing of documents for hydro testing such as, P&I.D diagram, latest iso metric drawing, boundaries of hydro test, filling / draining / vent point and ensure all the necessary P & ID / Isometric are in the package, ensure all line listed in test package are identified and test pressure is correct as per LDT, check blindlist of sizes, thickness and ratings.
- Prepared issued for construction drawings such as piping, mechanical civil and structural using AUTOCAD.
- Weld mapping and spooling of design drawing for fabrication.
- Revised as built and red marked up of iso metric drawing as per site condition.

SKILLS

- Basic mathematics problem solving.
- Read English and to communicate effectively verbally and writing.
- Continue to develop skills to become multi-skill mechanic (including millwright welding and others field as needed).
- Strong computer/software skills including MS office, AUTOCAD.
- Strong leadership skills and work ethics.

EDUCATION

Bachelor of Science Business Administration (BSBA) -College Level

University of Rizal System (URS)

April 2002 to June 2003

TRAINING AND SEMINARS

Pipefitting NCII

Sponsored by: **TESDA**

Saudi Aramco Piping Work Requirements

Sponsored by: **ARCC**

Shield Metal Arc Welding (SMAW)

Sponsored by: **Alternative Learning System (ALS)**

Comprehensive AUTOCAD

Sponsored by: **Microcadd**

I hereby certify that all the above information given is true to the best of my knowledge and belief.
