Always coordinate the foreman Welding Supervisor if what kind of procedures are going to apply to the certain task welding as per WPS. Must know the electric or filler wire classification to be used on certain material to be joined. Prepare fabrication daily reports to the foreman/supervisor.

WORK EXPERIENCE:

1. Position	:	<u>GTAW/SMAW/FCAW/GMAW/SAW OPERATOR WELDER</u>
Duration	:	OCTOBER 10, 2015 - AUGUST 9,2022
Company	:	ALMEM Air Liquide Middle East Manufacturing
Industry	:	Industrial gasses and engineering construction
	:	Rak Maritime City, Ras Al Khaimah, UAE
Project	:	Pressure Vessel Column Pressurized vessel and cold Box Piping

Job Description:

- Assigned in column fab shops, operate the column and boom SAW (Submerged Arc Welding) machine to weld the rolling plate 8mm up to unlimited thickness 44" up to 6 meter diameter. Long SEAM and circular SEAM. ER 308L, 2.4 or 3.2 filler wire and the flux OPF 500 for the stainless steel and AWS A5.17 EH12K filler wire and flux AS589 for the carbon steel. Double V single V Square Butt joint and single V with backing stripes for the last joint of the column or

pressure vessel weld in the good parameter as per WPS. All joints subjected 100% radiography tests.

- Weld in the GTAW (Gas Tungsten Arc Welding) process welding for all attachment to the column or pressure vessels like pipe and plate, nozzles, pad lifting, pad and trunion and support weld the transition joint to the heat exchanger aluminum or stainless butt joint for aluminum piping weld 4" up to 36" diameter the thickness of 4mm up to unlimited thickness. We are using ER 5183L filler wire 2.4mm / 3.2mm to 4mm and argon with helium Gas and ER 316, 308L for the stainless steel pipe ½ inch up to 72" diameter including miter bend with 16mm and unlimited thickness and plate 2mm up to unlimited thickness. All the pipe butt joints must be subject 100% RT (radiography test) and PT (penetration test) UT (ultrasonic test)for all plate and fillet welds.
- Qualified for EOT (Electric Overhead Travel) Crane for heavy lifting

- 2. Position : **SEMI SKILLED/PIPE FITTER**
Duration : March 13, 2013 to March 13,2015
Company : Amem Industrial Construction llc.
Industry : Mechanical (Piping) - Oil & Gas Refinery
Project : Takreer RRE & Carbon Black Delayed Coker
Job Description :

Carries out a variety of high pressure and general welding work mainly in fabrication workshops and outside using the GTAW/ SMAW welding process. Proficient X-ray Welding material. Carbon steel and low temperature materials. Full welding of but joint small bore pipe ½" up to 46" diameter unlimited thickness of high steam line Flare GAS and different gas line using Filler metal ER70S-2 for GTAW and 7018 for SMAW welding process Assign at of Plot pipelines corridor, Full welding of carbon steel pipe random or spool with fitting lines tees and Elbows.

QUALIFICATION:

Can adapt easily to new concepts of responsibilities, flexible, patient, self motivated and hardworking and can work as a supervisor.
