

ARVIC Q. GARCIA

Address: 84 Jones Street New Kalalake, Olongapo City

Contact no: 0905-465-5622 / 0949-185-3821

E-mail Address: epoy8732@gmail.com

Objective: Seeking a position in a reputable company in order to utilized my physical work capabilities as well as knowledge in basic operations.

Knowledge / Skills :

- Skilled Worker
Welding in Fcaw plate, Smaw , MIG carbon steel and MIG aluminum
 - Warehouse operations
 - Sales operations
 - Computer Literate
 - Office operations
-

Work Experience :

Robotic Mig weld operator / Mig welder Aluminum

- July 2022 up to present
- Operates robotic Mig welder machine for the construction of aluminum yacht hulls to be exported to United States.
- Works as a manual mig aluminum welder for the construction of hull frames to be used in the yacht
- Assembles the parts like frames and longi's both starboard and portside needed to make the yacht, fit-up the parts according to specific drawing marks
- After fit-up inspection, do mig aluminum weld on the parts
- Prepare the hull , remove protective plastic cover then proceed to fit-up the item to complete the hull
- After fit-up inspection of the hull , do robotic machine welding on the fit-up part of the hull
- Perform QC works on the finished items to ensure good quality
- Then assemble the frame to the hull
- Put stiffeners on the frame with gaps to ensure no hull deformation will occur after pressing
- Do QC work on the finished hulls , check for deformation and rectify ASAP.

SMAW Welder / Helper Nodado's Steel and Ironworks Mfg.

- October 2021 - June 2022
- Worked as SMAW welder and helper
- Helps in the preparation of materials needed in making window grills, steel gate, steel fence, stair railing, steel trusses and other metal works and repairs.
- Helps in the preparation of tools needed when going on site for repairs .
- Assist assigned fabricator on the cutting and layout of materials needed during a project
- Do grinding jobs to remove paints, rusts, and other debris on the work metal specially during repairs on site.
- Weld the finish project after fit-up.
- Grind the welded project and put primer paint .

Production Operator Enjoy Electronics Inc.

- October 2019 – March 2020 ECQ Lockdown
- Worked as a sorter, segregator of assorted cables and electrical wires imported from U.S. and Australia .
- The wires usually comes in container vans and are classified as junks or trash of wires imported from the said countries.
- After unloading from container vans production operators sorts the materials coming from the container and segregate the wires according to their sizes. Usually the larger wires are to be stripped of its skin using a wire stripper machine.
- After stripping the operator are going to sort the coppers according to their color, usually the the much darker colored wire copper are the most expensive because of its weight and the white coated copper are the much cheaper one. We put them in a big sack and are transported to the compactor machine and the white one are for granulation.
- The much smaller wires , and wires used in data computers and antenna are mixed together to be brought for granulation.

Management Trainee Vercons chain of Supermarkets

- April 2019 - September 2019
- To audit proper procedure in receiving and warehouse departments
- To foresee manning, equipments to be used, supplies needed and other concerns to ensure smooth operation for both departments.
- To brief and coach both department heads on deviations seen and put solutions to correct it.
- To address stocks requirements , stock outs and unserved items and address to procurement for requisition.
- To make weekly reports about day to day activities and report directly to the owner.
- To make roving activities on all 8 branches using checklist. Audit procedures on both departments if they are being followed.
